*AIR COMPRESSOR LUBRICANTS  
ARE OUR SPECIALTY*

## Air Compressor Lubricant Cross Reference (Aftermarket)

This SA Performance cross reference guide outlines competitive product equivalents and is not intended to be a guideline for making lubricant recommendations. It is always important to understand the equipment and application as it is not safe to assume the competitive product in use is the proper lubricant. If there is ever a question on the proper lubricant selection, be sure to contact SA performance for confirmation prior to performing the compressor service.

										Silicone

\*SAP 1000 series is designed to provide OEM equivalent performance while being top-off compatible with most compressor fluids including PAG's, POE's, diesters, PAO's and synthetic hydrocarbons. Typically this product is a recommended alternative for competitive OEM and aftermarket rotary screw compressor lubricants (excluding silicone based lubricants).
